

## 2-Ethoxyethanol

<b>Chemical Name:</b>	2-Ethoxyethanol
<b>Synonyms:</b>	EGEE; Ethylene glycol monoethyl ether
<b>CAS Number:</b>	110-80-5
<b>EC (EINECS) Number:</b>	203-804-1
<b>Revision Number:</b>	1-2026

### Chemical identification and uses

2-Ethoxyethanol is a clear, colorless, ether-like flammable liquid. It is primarily used in laboratory settings and various industrial applications as a solvent for coatings, inks, adhesives, textile dyes, lacquers, and epoxy resins.

### Potential exposures

Exposure to 2-Ethoxyethanol can occur in industrial/manufacturing facilities and during the handling of the chemical. Workers may be exposed primarily through inhalation, skin, and eye contact. Adherence to good manufacturing and industrial hygiene practices is essential to prevent or reduce exposure.

### Human Health hazards

It is acutely toxic if swallowed or inhaled. It is also classified as a reproductive toxicant and may damage fertility or the unborn child. It has not been classified as a carcinogen by NTP, IARC, or OSHA.

### Environmental Health hazards

It is readily biodegradable and is not expected to be toxic to aquatic life. Proper environmental control measures should be implemented to prevent leakage or spillage.

*This product stewardship summary is intended to give general information about the chemical or categories of chemicals addressed. It is not intended to provide an in-depth discussion of all health and safety information. Additional information on the chemical is available through the applicable Material Safety Data Sheet which should be consulted before use of the chemical. The product stewardship summary does not supplant or replace required regulatory and/or legal communication documents. Statements concerning use of our products are made without warranty that any such use is free of patent infringement and are not recommendations to infringe any patent.*
